**Applicants must have one or more groups or individuals in psychoanalytic supervision for the duration of the course. The supervision offered must be psychoanalytic in orientation, though the supervisees themselves need not be psychoanalytic psychotherapists. The Guild of Psychotherapists may be able to offer assistance in finding suitable supervisees, although this is not guaranteed. Early application is advised if this type of assistance is required.**

- 3 individual tutorials (usually with the course leader).
- 15 hours Individual Supervision of Supervision or the equivalent in a group with a psychoanalytic psychotherapist who has been qualified at least 5 years (to be arranged privately). You will need a letter from your supervisor of supervision saying that your

supervision is of an acceptable standard. This letter should be sent to the Guild Office before the last seminar of the course.

- Evidence that you can deal with letters, reports, references etc which may be required by supervisees or by their agencies / training / professional organisations (including ethics panels). This may involve some written exercises which can form a basis for part of the 5,000 word essay required by BAPPS.
- We may ask you to meet up with/communicate via phone or email with another course member a few times in between seminars for support and discussion of specific issues. You will be able to choose your partner and where you live will be taken into account.
